We are a leading provider of system solutions that make using public transport easy. In partnership with transport operators around the world, we are committed to making travel as pleasant and stress-free as possible for passengers.

We'll take you there.

We combine the innovative products and services of our brand FareGo with the unique expertise of our international team. The result is reliable, intuitive, and forward-looking fare collection systems that help make sustainable mobility accessible to everyone.

Together

**We create
a world where
sustainable
mobility is
accessible to
everyone.**

Shaping a **mobile future**

What is life without mobility? And what is the future without sustainable mobility?

It would be easy to take mobility for granted. But we depend on it to facilitate so many aspects of our lives – education, work, healthcare, leisure and more. What's more, how we move around has a major impact on the environment we live in, so we cannot ignore its significance.

At Scheidt & Bachmann Fare Collection Systems, the importance of mobility, to people and to our world, is what drives us every day. It's why we give our best, as individuals and as a company. We continually strive to improve existing systems and services, and to innovate to create new, better solutions.

These solutions ensure that public transport is easy to access, so as many people as possible can – and want – to use it. At the same time, we are enabling

transport companies to operate successfully and run their business efficiently.

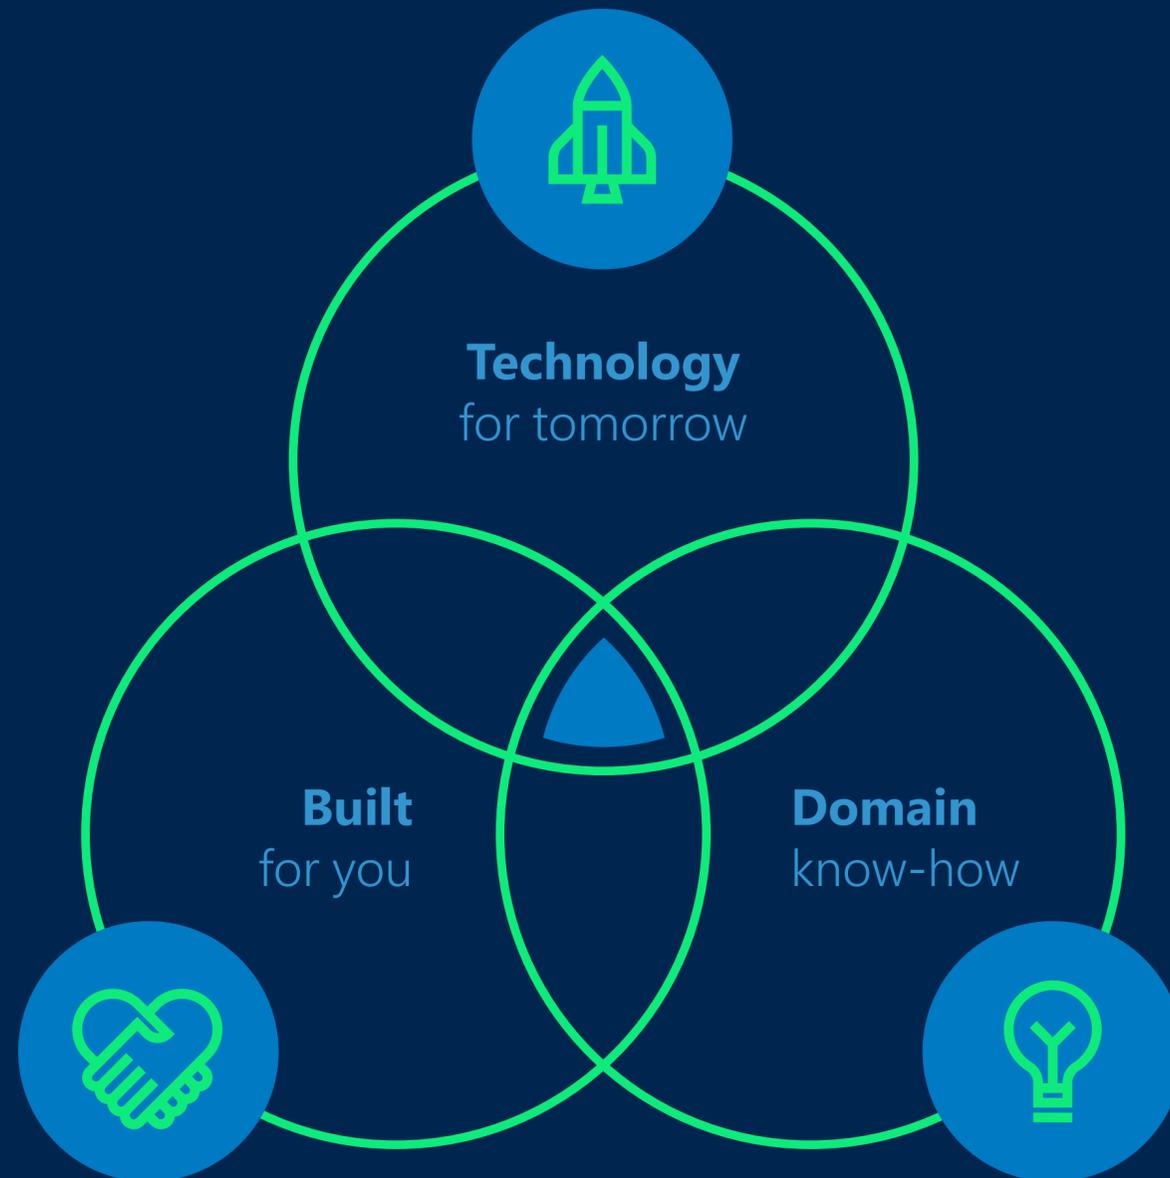

We are dedicated to working in partnership with you, our customers, to create the most effective, easy to use and technically sophisticated fare collection systems, that meet the needs of today, and anticipate the world of tomorrow.

Fare collection for the digital age? **We'll take you there.**

Andreas Räschmeier

CEO of Scheidt & Bachmann Fare Collection Systems GmbH

Our **promise**

Technology for tomorrow

Transport and ticketing are what drives us. We're passionate about exploring new trends and technology to create the world's most advanced fare collection systems.

Built for you

No two fare collection technology requirements are the same. Trust us to take time to understand your problems precisely and to find the simplest, most effective solutions.

Domain know-how

We have over 45 years' experience of helping transport operators to improve their efficiency and create seamless solutions for passengers. Our track record is unrivalled.

Collaboration

**Together with
transport companies
around the world, we
make travel easy for
passengers.**

Our FareGo portfolio

Fare collection systems

From card-based systems to account-based ticketing – our fare collection systems make public transport easy to use. Our devices are customer touchpoints that help transport operators to provide superior passenger services, just like our digital solutions.

- Account-based ticketing
- Card-based systems
- Fare collection devices

Data management

Our cloud-based data management platform enables transport operators to optimise their business performance based on mass data. You avoid unexpected disruption, respond faster to incidents, make informed decisions and plan ahead.

- Live system status
- Predictions & notifications
- Data analysis & automation

Services

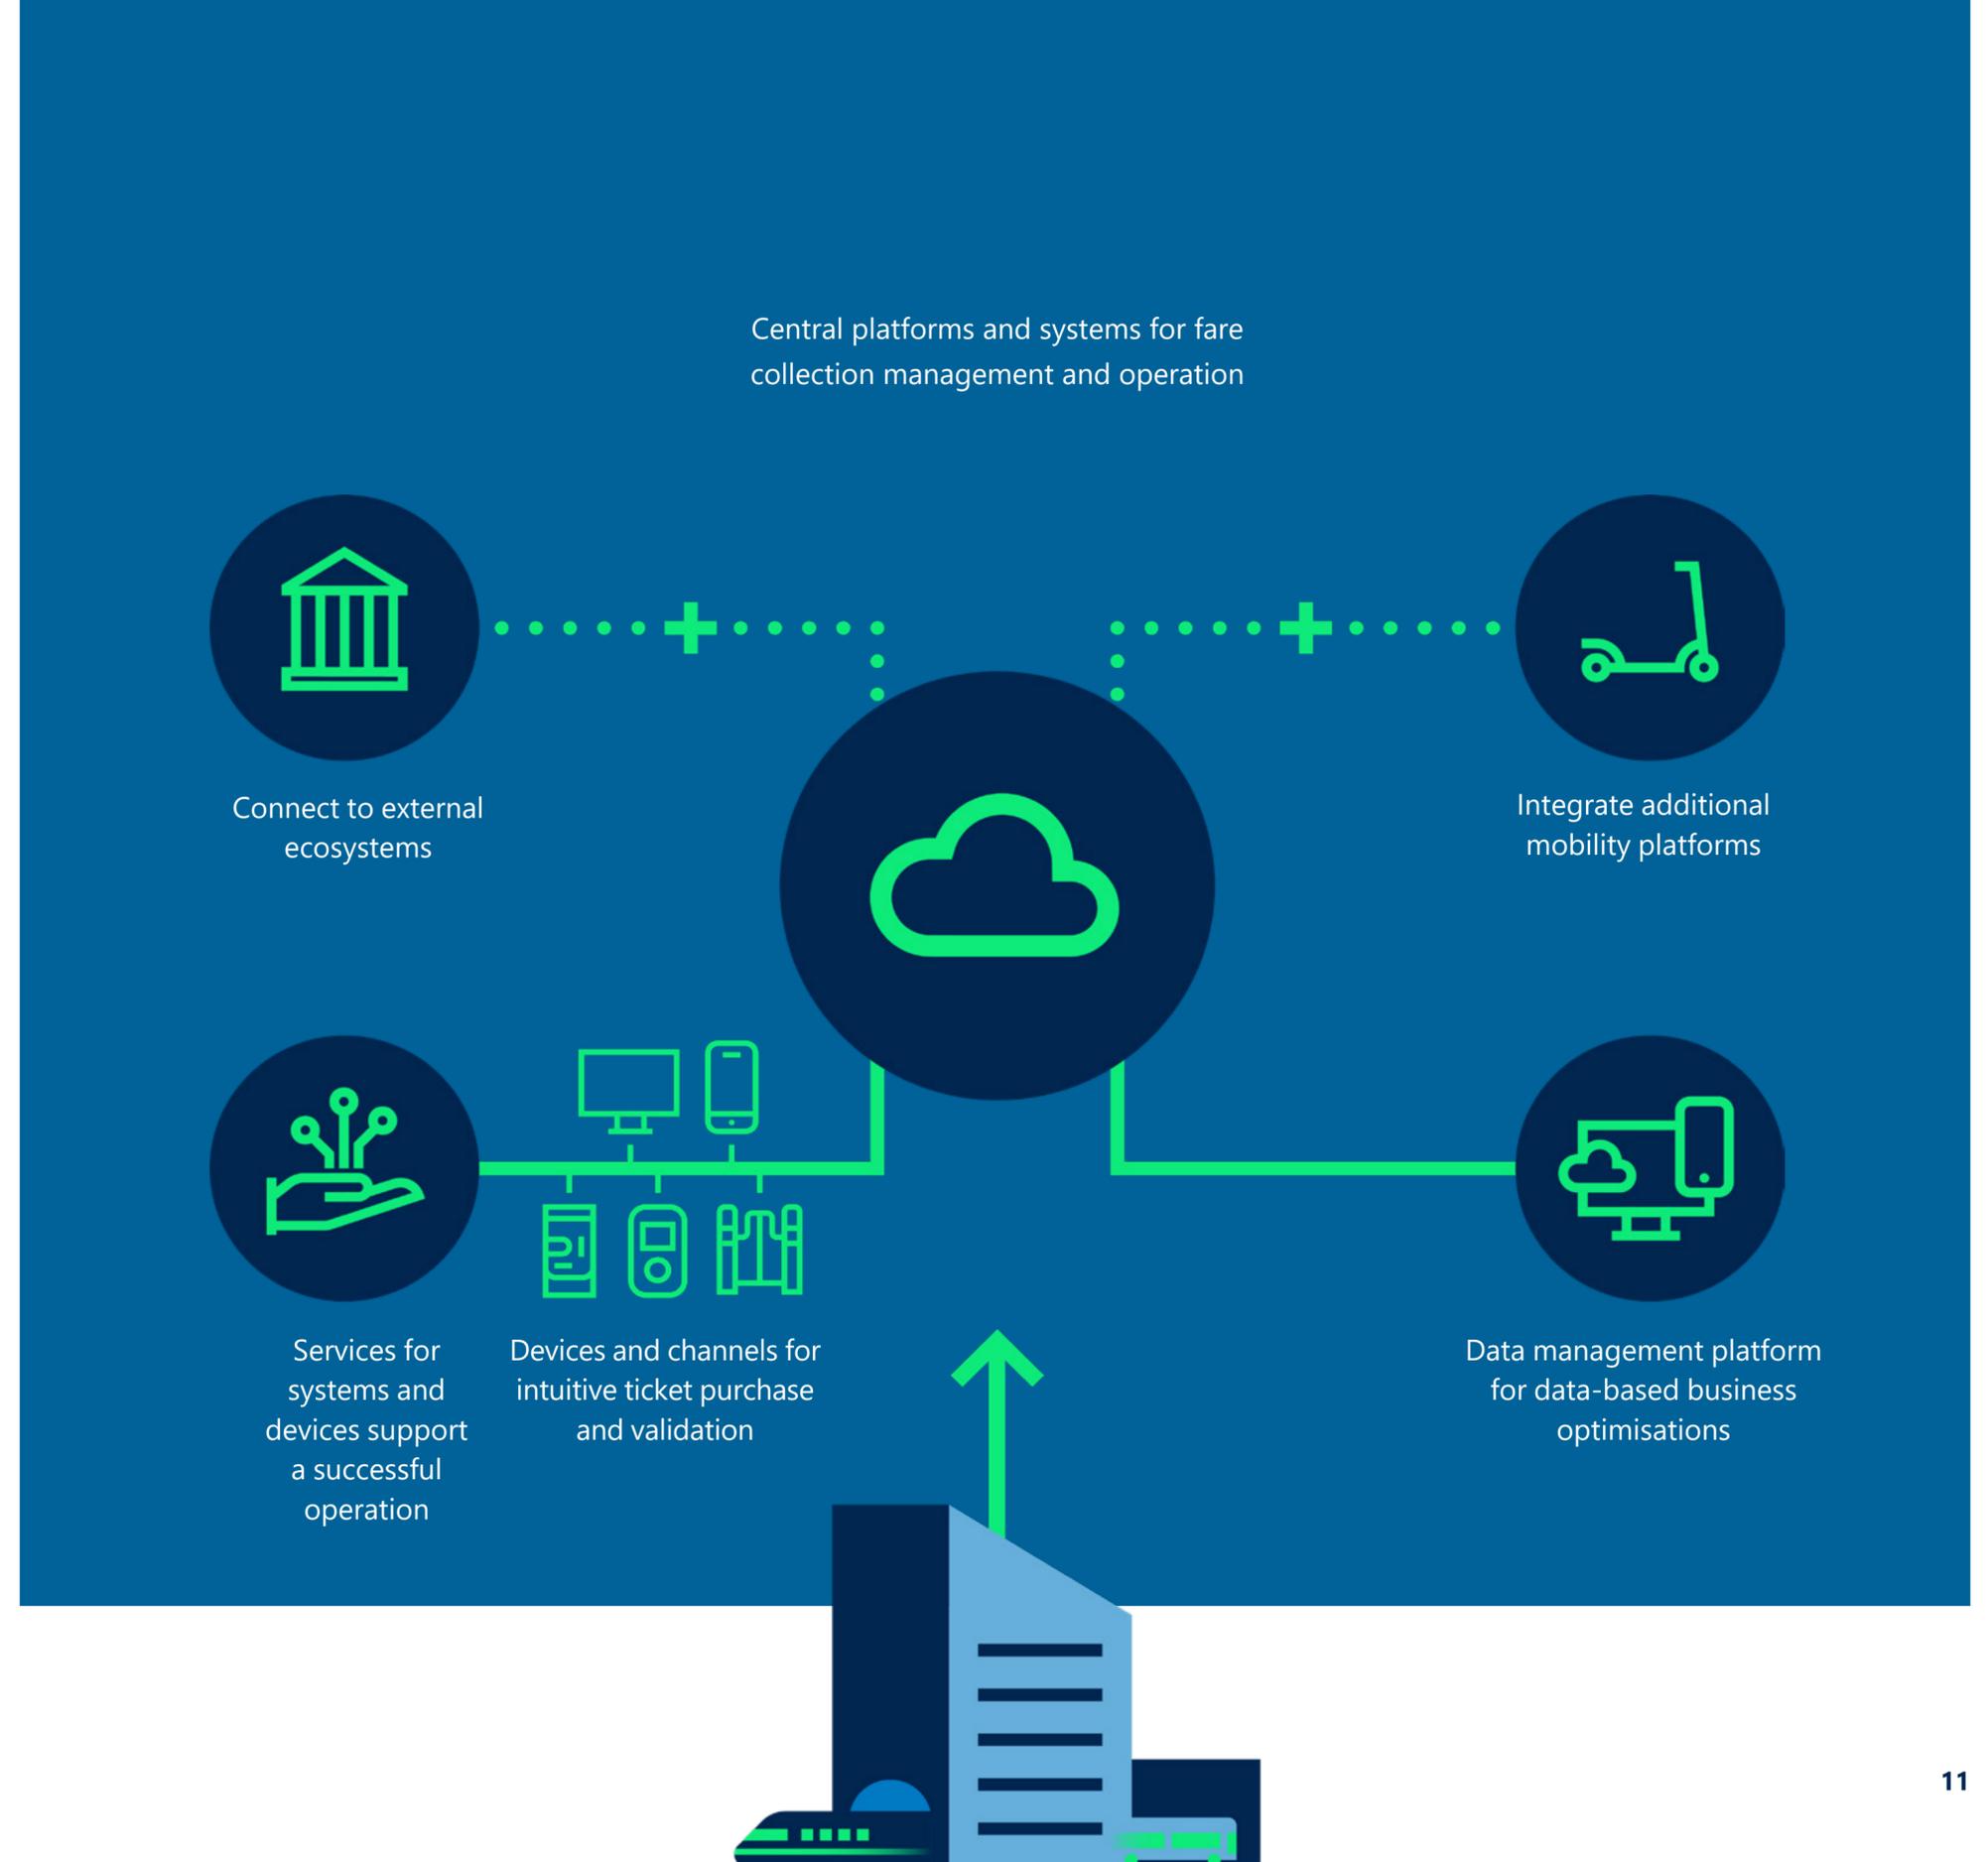

We care for your systems and devices and help transport operators to deliver reliable passenger services. Our highly specialised service teams expand the work potential and strengthen existing capacities.

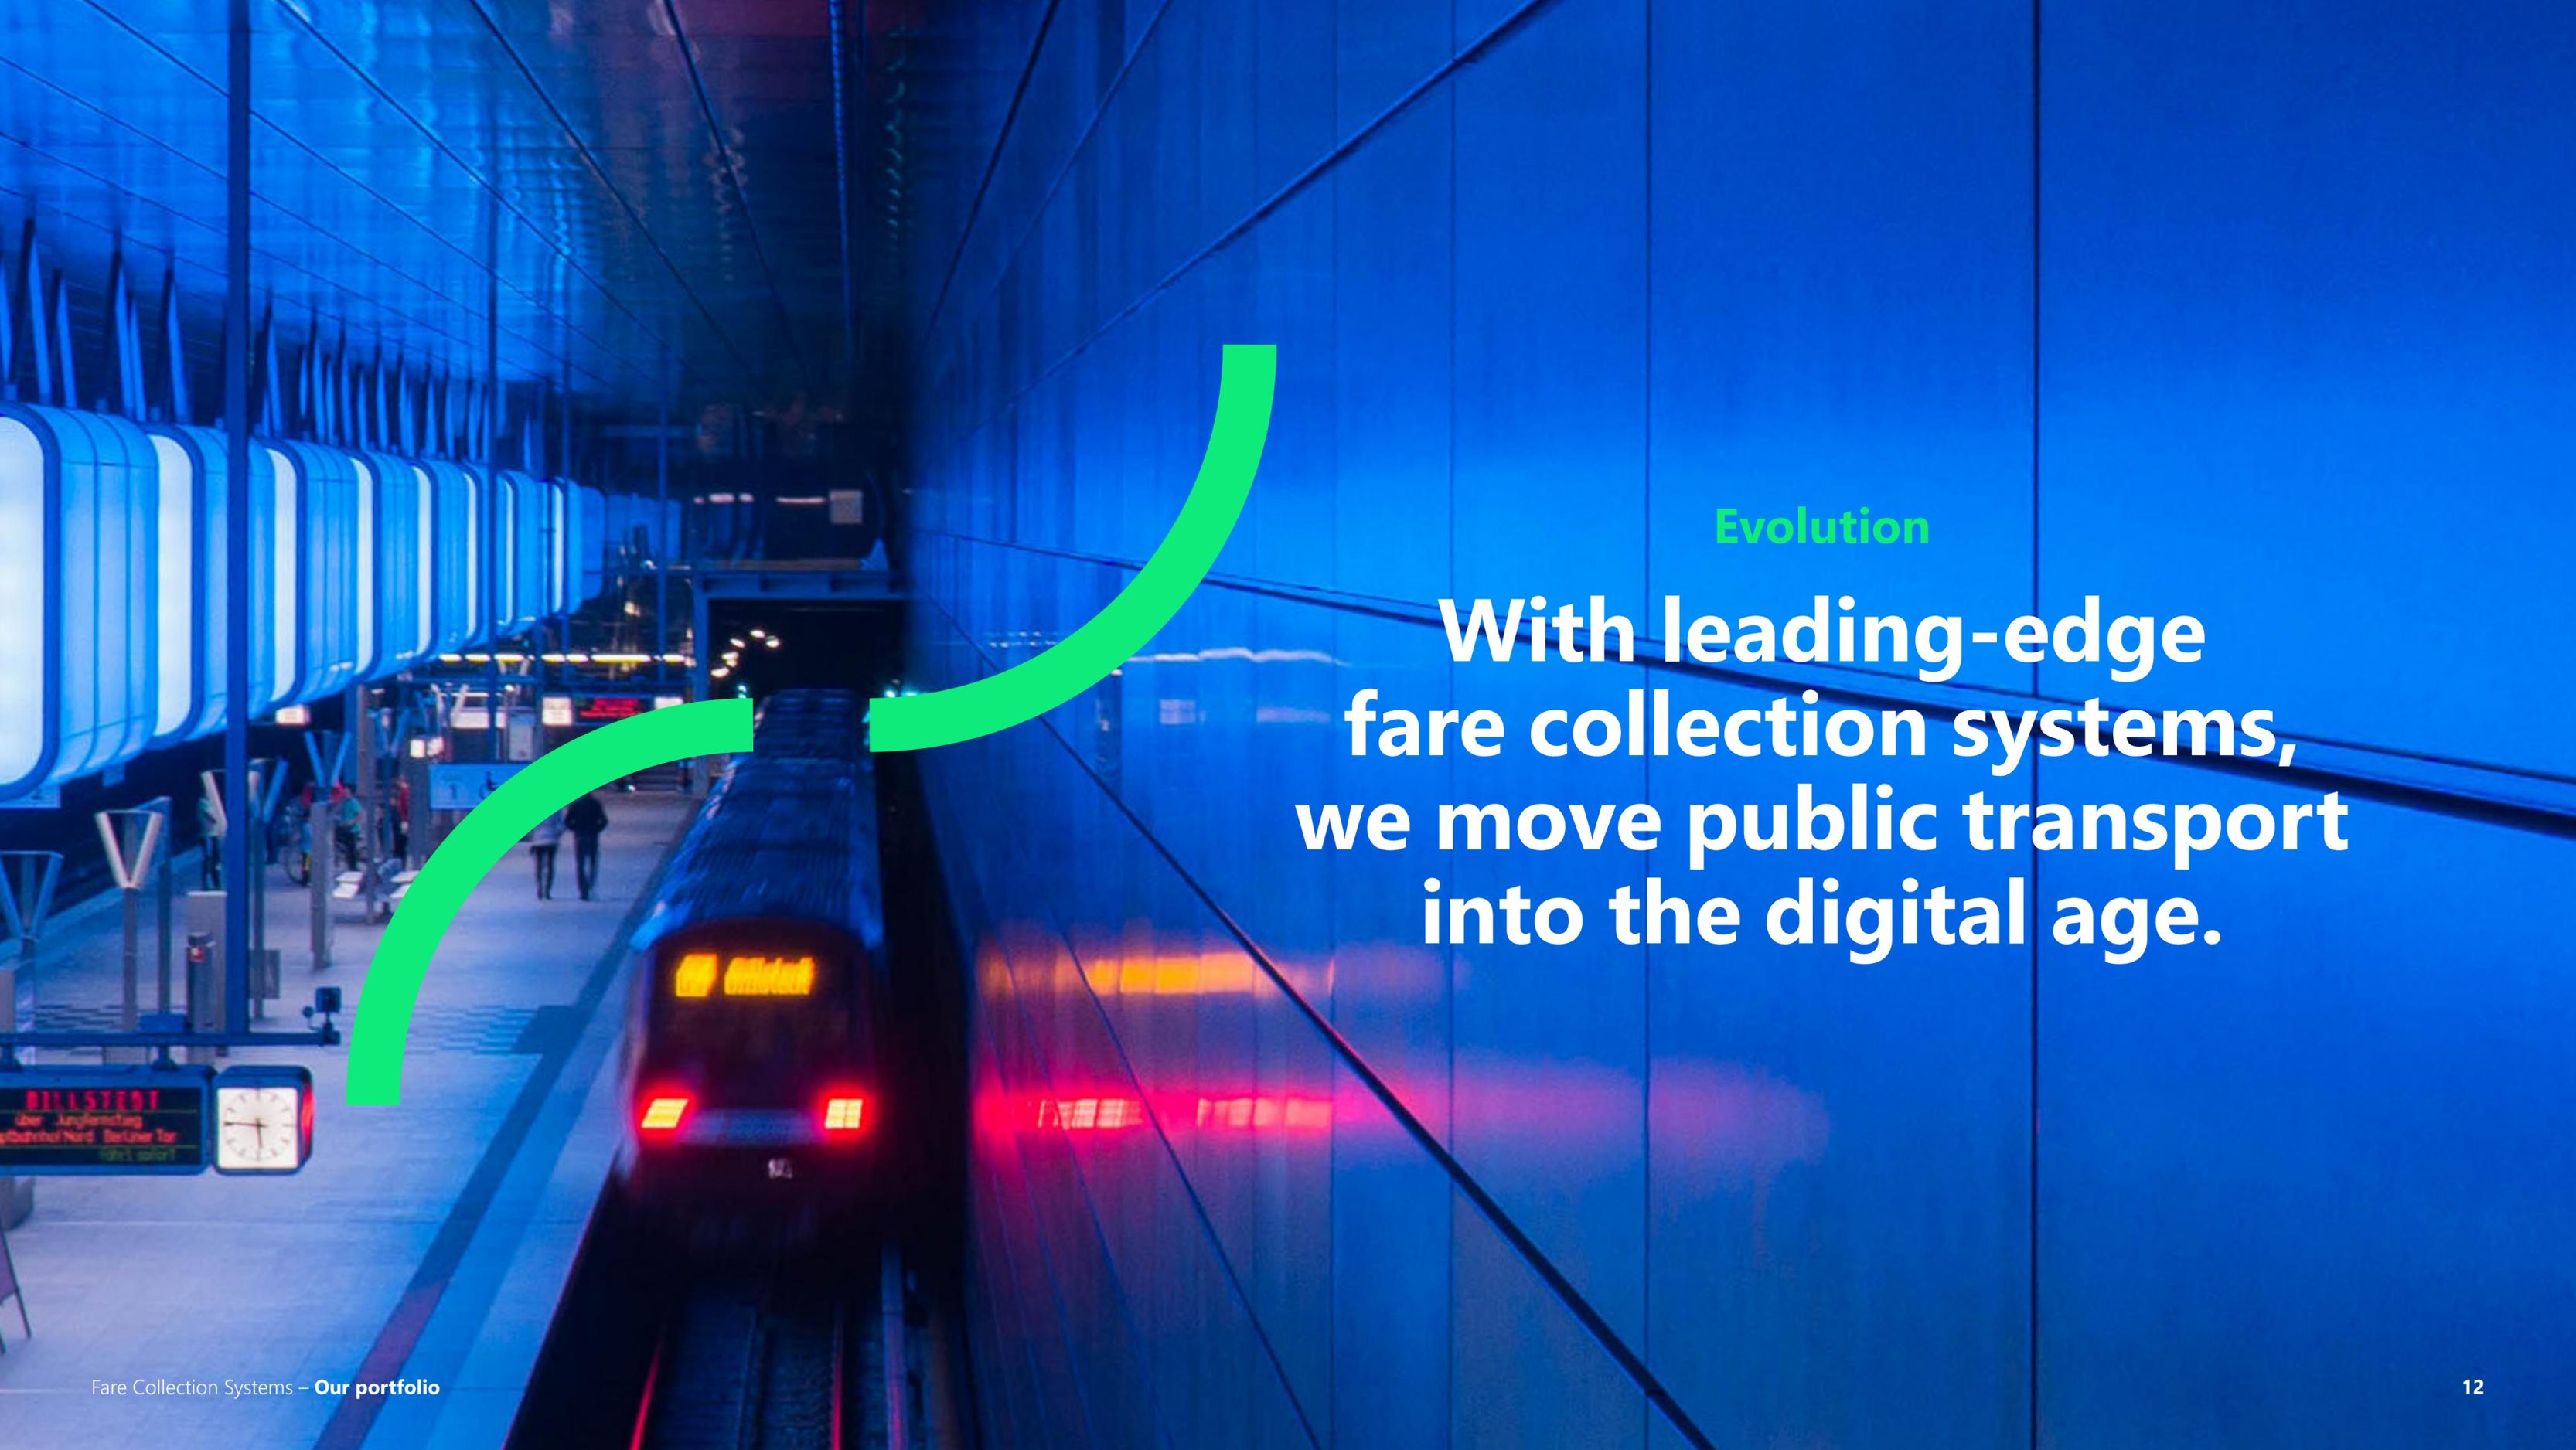

- Maintenance & repair
- Managed application hosting
- Training

Our fare collection systems

Built for you. Delights your passengers.

Our FareGo portfolio is modular, scalable, and open. It allows you to build whatever system you want, and adapt it as technology evolves, operations expand, and user expectations change. Choose the central fare collection platform for an account-based ticketing or traditional system. Add the sales and validation channels that match your passenger services. Connect the data management platform to optimize your operations. Expand your own resources by using our system and device services. Integrate external systems or platforms to build a holistic network.

Evolution

**With leading-edge
fare collection systems,
we move public transport
into the digital age.**

Account-based ticketing with open payment

BONNsmart

The first fare collection system in Germany based on contactless credit and debit cards.

- Tap & Go: No ticket selection, no registration necessary
- 'Pay as you go' with automatic journey construction, best-price calculation and fare capping
- 700 validators in 330 buses and trains

Nationwide account-based ticketing in the Netherlands

TRANSLINK

Transforming the national OV-chipkaart system from card-based to a digital, cloud-based system.

- Central account-based ticketing platform
- Integration of 14 million active cards and 60,000 field devices to the central platform
- Hosting services

Account-based ticketing

OC Transpo

OC Transpo is a leader in innovation, and we are pleased to collaborate with OC Transpo to provide one of the most advanced fare collection systems in North America. With open payment, device management and monitoring system, as well as a full range of new equipment, we give OC Transpo the ability to meet future challenges.

- Contactless and paper-based ticketing options
- Account-based ticketing with open payment
- 1,800 validators, 300 fare gates and 170 ticket vending machines with virtual ticketing assistance
- Device management and monitoring system

Scheidt & Bachmann Group

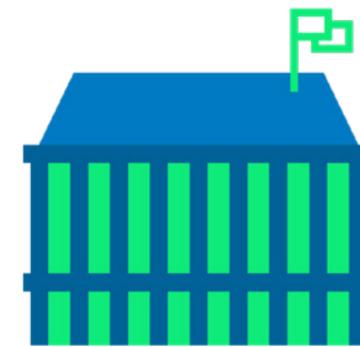

Millions of people around the world use our systems every day.

Our digital management systems can be found wherever people use modern mobility infrastructure: When they park their car at a shopping mall in Nairobi or take the bus in Toronto; when they refuel in Berlin or travel Europe by train. These are all touch-points with Scheidt & Bachmann technology.

Our divisions:

- Fare Collection Systems
- Fuel Retail Solutions
- Parking Solutions
- Signalling Systems

We are a family business.

We think in generations, not in quarters. Scheidt & Bachmann was founded in 1872 and is now in the fifth generation of the family shareholders, currently under the leadership of Dr.-Ing. Norbert Miller.

About 3,000 employees from 50 nations work across our 90 locations worldwide to shape the mobile future.
